

ILAC has the pleasure to invite you to the following conference which will take place on **Thursday, May 19<sup>th</sup> at 18H15** at Excellium Services S.A. in Contern.  
The topic will be:

## «Cyber Risk»

(The conference will be held in English)

**Simon Cartagena**  
*Deputy Chief Risk Officer for SCOR UK Company Ltd  
& member of the IFoA Risk Management Board*

will do us the honour of being our speaker on that occasion.

Cyber attacks are more and more often mentioned in the press, whereas most of them remain confidential. The development of cyber criminality and the geopolitical instability are the main factors of that worrying evolution which risks to be very costly for victims and their insurers.

This conference will allow you to discover the latest trends in cyber crime, the near-misses and the barriers to a coordinated action to eliminate cyber crime.

Our speaker will then present us

- how non-Cyber insurances can aggregate causing systemic risk across lines of business
- the trends in losses that start every so often
- model vendor views.

The conference will be take place in the premises of Excellium Services.

Excellium is the leader in cybersecurity on the Luxembourg and Belgium markets employing more than 150 people in Luxembourg. At the end of the conference, participants who wish to do so will have the opportunity to visit its Monitoring Center which assures, 24 hours a day and 7 days a week, the supervision of their clients' sensitive infrastructures with respect to potential cyber attacks.
