

Adding business value through risk appetites & stress and scenario testing

(The conference will be held in English)

Edward Harrison & Catherine Drummond

Partner, LCP (UK)

Partner, LCP (UK)

The Institut Luxembourgeois des Actuares is delighted to invite you to a conference presented by Edward Harrison and Catherine Drummond.

During this session, the speakers will explore some of the common pitfalls encountered when setting risk appetites and will propose a framework for enhancing the effectiveness of stress and scenario testing.

Additionally, they will share three insightful case studies showcasing how these approaches have been applied to address real-world business challenges such as capital management, reinsurance purchase, and pricing strategy.
