

LIFE - ENHANCING CAPITAL MANAGEMENT FOR LIFE INSURERS

Bastien Godrix

Partner & Actuarial Lead, Oliver Wyman, France

Jeffrey Hennen

Principal & Actuarial Lead, Oliver Wyman, Netherlands

This presentation will examine how effective capital management and strategic balance sheet projections can strengthen the resilience and support the growth of life insurance companies and subsidiaries in the local market. The session will highlight the importance of ORSA and ALM practices in aligning risk appetite with regulatory requirements and market dynamics, as well as the role of illiquid investments in optimizing portfolio returns while managing liquidity and valuation challenges.

P&C – LITIGATION TRENDS & EMERGING CLAIM TYPES

(PFAS, JOHNSON & JOHNSON, THIRD-PARTY LITIGATION FUNDING)

Roel Van Den Heuvel

Principal, Oliver Wyman Actuarial, Belgium

This presentation will explore the evolving landscape of litigation trends in the property and casualty insurance sector, with a focus on emerging claims that may reshape risk profiles and claims management strategies. It will address how changes in legal environments, regulatory frameworks, and societal expectations are influencing new liabilities. One example is the litigation related to PFAS (per- and polyfluoroalkyl substances). The session will discuss how insurers can proactively adapt, starting with risk identification and ORSA.
